Graded Review Questions

Audit Access Expires Mar 23, 2020

You lose all access to this course, including your progress, on Mar 23, 2020. Upgrade by Mar 2, 2020 to get unlimited access to the course as long as it exists on the site. [**Upgrade now**](#)

Graded Review Questions

Instructions for Review Questions

1. Time allowed: **Unlimited**

- We encourage you to go back and review the materials to find the right answer
- Please remember that the Review Questions are worth 60% of your final mark.

3. Attempts per question:

- One attempt - For True/False questions
- Two attempts - For any question other than True/False

3. Clicking the "**Final Check**" button when it appears, means your submission is **FINAL**. You will **NOT** be able to resubmit your answer for that question ever again

4. Check your grades in the course at any time by clicking on the "Progress" tab

Question 1

1/1 point (ungraded)

According to this Module's reading assignment, Hal Varian, the chief economist at Google, declared that "the sexy job in the next ten years will be _____".

☒ Statisticians

☐ Engineers

☐ Physicists

☐ Computer Scientists

Submit

You have used 1 of 2 attempts

Question 2

0/1 point (ungraded)

According to this Module's reading assignment, the author defines a data scientist as someone who uses complicated machine learning to build predictive models, publishes their research results in online blogs, and works from home.

☒ True

☐ False

Answer

Incorrect:

Correct. This is close to how Dr. Vincent Granville defines a data scientist but not the author.

Submit

You have used 1 of 1 attempt

Question 3

0/1 point (ungraded)

According to this Module's reading assignment, the author defines data science as the art of uncovering the hidden secrets in data.

☒ True

☐ False ✓

Answer

Incorrect: Incorrect. The author defines data science as what data scientists do.

Submit

You have used 1 of 1 attempt

Question 4

1/1 point (ungraded)

According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?

☒ His definition is inclusive of individuals from various academic backgrounds and training.

☐ His definition limits data science to activities involving machine learning.

☐ His definition excludes statistics.

☐ His definition is about weaving strong narratives into analytics.

Submit

You have used 1 of 2 attempts

Question 5

1/1 point (ungraded)

According to this Module's reading assignment, what characteristics are said to be exhibited by the **best** data scientists?

☐ Really curious engineers and statisticians.

☐ Really curious people who ask good questions.

☒ Curious individuals who ask good questions and are O.K. dealing with unstructured situations and trying to find structure in them.

☐ Thinkers who are really curious and hold a Ph.D.

☐ Really curious people who ask good questions and have at least 10 years of experience.
